

Stock the Fix It Cart:

Steps & Sample Purchase List

Step 1: Lead a discussion in the classroom.

“What tools may we want for our Fix It Cart?” Give each student a sticky note to write or draw their ideas.

Step 2: Compile student ideas into a big list. Add your own ideas to the list. Ask yourself: “Do I want to stock the cart slowly over time (as projects arise) or do I want to immediately stock the cart and add extra supplies as needed over time?”

Step 3: Prepare to spend some time shopping around. Shop in person if possible to get a sense of the size and feel of each items. As much as possible, purchase the highest quality tools you can afford in the smallest, child-friendly sizes. If you need a starting point, use our rough, evolving list to help guide you purchases.

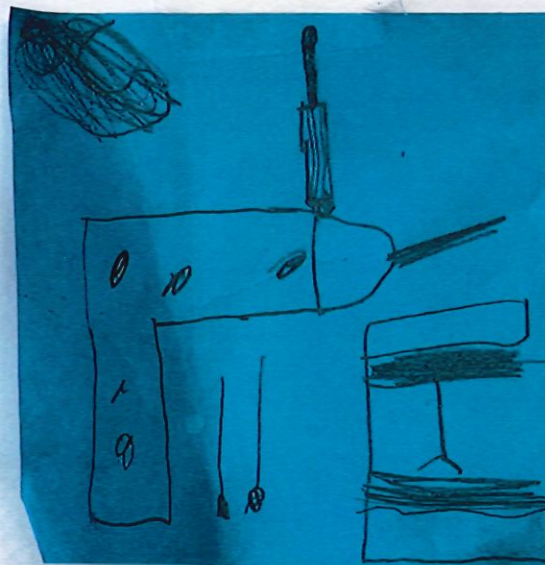

Step 4: Purchase items, unbox with or without children, and load into cart. Label each drawer with a simple, removable label for readability and flexibility to change over time. Label each tool with a “Fix It Cart” sticker to help tools stay with cart. Plan to make additional purchases over time as needed.

Step 5: Designate a point person to restock consumable materials and take on the long-term care of the cart. As a school, meet to determine where to store the cart and how to share and use the cart.

Tools we may want for our Fix It Cart!

- RENCH
- drill
- NED
- SCREW DRIVER
- SOWEN SHEH
- SANDPOT

NEE TOLE
THE 2D
GLAD
MALS
SCROOS

Saw Skrou
Hammer

FILYBS-
-HED

(We are learning to spell, Can you figure out our words?!)

Sewing Notions

Husqvarna Emerald 118

A working, high quality sewing machine is essential if you plan to do significant sewing repair with children. We recommend the Husqvarna Emerald 118 machine. Why? Pedal speed control + up/down needle!! These features are key for kids + sewing !!
